

Professor Petr HLINENÝ

Masaryk University, Brno
(République Tchèque)

Petr Hlinený is Professor of Computer Science and a former Vice-dean for research, development and doctoral studies at Masaryk University, Brno, Czech Republic. His research interests, at the interplay of discrete mathematics and theoretical computer science, lie in complexity theory and algorithms, sometimes using tools from logic, in graphs on surfaces, and in geometric representations of graphs and their recognition. He has obtained several awards: among the most recent ones, a «top cited article 2005-2010» from the Journal of Combinatorial Theory, series B, and a Graph Drawing 2019 best paper award.

Conférence

— — — — —

« *On refined hardness of the graph crossing number* »

Date : Mardi 30 avril 2024 de 14h à 15h

Public : Chercheurs et chercheuses, doctorants et doctorantes, étudiants et étudiantes master, enseignants chercheurs et enseignantes chercheuses

Langue : Anglais

Lieu : Salle 4B125, bâtiment Copernic, Université Gustave Eiffel
